Z
base leg

Flexible seat depth

Every item with the term "L" has a movable back support for some centimeters backwards to extend the seat depth. Also the total depth changes.

**Metal colours for legs**

The leg can be ordered in the finish high-gloss chrome or powder-coated black. Please indicate when ordering.

**Seam implementation**

The model is produced with a flat-fell seam in fabrics. In leather cover it has a special cross-stitched seam. A contrasting coloured thread is available for no surcharge in leather cover and some fabric colours.

**Flexible plug-in headrest**

The U 92 headrest with joint can be inserted individually between the back of the carcass and the back cushion (except for article EL - here only in the middle back).

**Absolute eye-catcher**

The beautiful, cubic armparts of the model provide an interesting look. The armpart pillow can be placed here.

**Order information****Back sides of sofas:**

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

Base leg Z:

If elements and sofas with or without an armrest are to be attached directly to elements or sofas with or without an armrest, a base leg Z is required. The base leg must be ordered separately. See price list.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge. You will find the specified colours on the cover sheet of the individual leather qualities in our fabric/leather trolley. Please always state the contrast thread number, otherwise it will be delivered tone in tone.

All dimensions given are approximate measurements in inches. We reserve the right to make changes. The dimensions are given in width/depth/height/seat height.

Seat depth: approx. **24 in**

Seat depth with function: approx. **32 in**

Armrest width: approx. **14 in**

Armrest height: approx. **20 in**

Dimensions of the group compositions:

In this model, the seat of the longchairs protrudes approx. 1 in to the side of the seat. Therefore, other dimensions result than by pure addition of the article dimensions. Please note.

Especially loose-fitting upholstery:

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

Order checklist

- Structure and cover
- Metal colour for leg
- Ottomans
- Contrasting thread
- Flexible plug-in headrest
- Positioning diagram
- Pillows
- Accessories
- Base leg Z

Upholstered furniture frame structure

1. **Frame** – beech wood structure; back: metal construction
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** of ergo-PUR-foam and a high quality mix of polyester fibres and foam rods
4. **Back suspension** with upholstery strap and ergo-PUR-foam
5. **Back upholstery structure** with high quality mix of polyester fibres and foam rods, filled in boxes

Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

Legs

metal leg, diff. metal col.

Metal colours:

The leg is available in different metal colours. Please indicate when ordering.

Powder-coated:

The colour M99 black is powder-coated.

Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
