

Z62 – evenly & easy-care

The smooth pigmented leather **Z62** is chrome tanned as well as tumble dyed and has a stylish coinage. Although the leather has a very fine and even grain, there may be slight differences in its structure! The leather is especially friendly to care and lightproof – a suitable family leather. As the leather is quite thin, it shows an especially fine grain pattern. Therefore, it fits perfect for delicate upholstery and chairs.

Natural features (scars, folds from fattening, as well as differences in structure and colour) are completely used and they can be found in all pieces of furniture. Healed brands are also used on the back covers. These features are not recognised as reasons for complaint.

Thickness:	0.9 – 1.1 mm
Dyeing method:	pigmented
Easy-careness:	★★★★★
Naturalness:	★★
Natural characteristics:	★
Light fastness:	★★★★★
Even structure and colour:	★★★★★
Sitting atmosphere, warmth, softness:	★★

★ – low, ★★★★★ – excellent

Cleaning & Care

Dust your furniture regularly with a damp, lint-free cotton cloth – **never use a microfibre cloth**. Immediately wipe up spilt liquids with a dry cloth – do not rub. Any remaining grease stains will gradually be absorbed by the leather – please do not do anything else! Treat with special care products (use-oriented) from time to time as instructed. Upholstered furniture must not be treated with commercially available cleaners, as this (almost) always contains silicones and waxes.

Leather information

Intensive sunlight and localised radiation should be avoided (can lead to fading). Staining of the material caused by clothing (e. g. jeans, not colourfast textiles/materials) does not generally constitute reasons for complaint. Processing of intensive colours (red, blue, black, dark brown etc.) in combination with light colours can lead to colour migration (this is not accepted as reasons for complaint). Grains, pigment faults as well as structure and colour differences are natural features and are used to the full extent. They can be found in all parts of your sofa (seat, back, side part) and will not be recognised as a complaint (in the back part also brands are used). Please pass this information on to your customer.
